### How WE Empower Others

EYE-Q Vision Care provides 16 doctors to the Central Valley with a mission to help patients see, look, and feel their best. Serving the Central Valley since 1956, EYE-Q has maintained a commitment to excellence and has successfully provided the highest standard of customer care. This success has equipped EYE-Q with the ability to support a variety of non-profit organizations and programs in the community. We are actively engaged in community outreach efforts, dedicating significant funds, time and resources to meaningful causes.

A proud partner of the Central California Women's Conference, EYE-Q applauds women's efforts in helping to transform communities. As part of our comprehensive community relations program, EYE-Q identifies and supports several local causes and organizations. EYE-Q recently raised a year's worth of funding for the Bulldog Pantry – a food distribution organization run by Fresno State students that provides food to families in need. In addition, EYE-Q has successfully raised money for the Valley Center for the Blind, an organization that helps the visually impaired attain independent living skills.

EYE-Q also assists Liga International in its mission to provide free healthcare services to people in rural Mexico and has launched a donation program to advance Liga efforts. EYE-Q makes a donation to Liga for all LASIK procedures performed; additionally, EYE-Q significantly reduces the price of LASIK to patients who donate their prescription glasses to Liga. Our doctors also commit their personal time and resources to supporting community organizations including the YMCA, Make-A-Wish, the Leukemia and Lymphoma Society, Community Hospital, Valley Public Radio and Valley Public TV, as well as many others.
